## **New opening in Barcelona**

We continue to focus on sustainable growth. With this new hotel, we now have nearly 1,400 rooms in the area. This places us among the hotel chains with the highest volume of rooms in the Barcelona destination.

## **Spaces to dream**

The chain's new hotel stands out for its boutique interior design, which features noble materials, a fusion of textures, indirect lighting and warm golden tones. The architecture studio behind this project, Batlle y Roig, is a national reference both in the field of buildings and in urban planning.

## **The gateway to Barcelona**

The beginning of the new section of Diagonal Avenue will be located precisely in the area where our hotel stands. This urban development project will undoubtedly revolutionise and further enrich all the surroundings of the hotel and its access to both Barcelona and the airport and other points of interest.

## **Strategic sports and corporate location**

Located opposite the Joan Gamper Sports City of the Barcelona Football Club, synergies between the world of sports, leisure and business are guaranteed.
