# HOTEL *(Ocean Drive)* ESPAÑA

Hotel España, a 4\* luxury hotel located right in the historical heart of Barcelona and considered a little jewel of Catalonian Modernism, was originally opened in 1859 with the name of Fonda de España and then went on to be refurbished by the celebrated Modernist architect Lluís Domènech i Montaner, in the early 20th Century.

Now run by OD Hotels, the hotel spaces will see a new refurbishment to emphasise its modernist original design whilst actualising it with key designer pieces, materials and the latest sustainable technology.
