OUR SPECIAL EMPLOYMENT CENTRES, AN EXAMPLE AND A SHOWCASE FOR EMPLOYMENT INTEGRATION

twelve of our hotels are run as Special Employment Centres, where over 70% of workers are people with some type of disability. Its main aim is to carry out productive work within the market in which it operates, ensuring paid employment and the provision of services through the personal and social adjustments required by workers with a disability.

It is an innovative project through which we are showing the world, particularly the tourism sector, a main driver of the national economy, our trust in this group, demonstrating that they can manage an employment centre of these characteristics in an integrated manner, that is, by showing the world that it is possible. These hotels are an example and a showcase for employment integration, the guest feels that he/she is in a special place, where they receive an attentive service.
